new Microsoft Edge .............................................................. 8
Google Chrome

1. Click the *menu* icon (three horizontal bars) in the upper-right corner of the browser window.
2. Click *Settings* near the bottom of the drop-down menu.
3. Click the link for *Privacy and Security* in the left sidebar.
4. Look for the *Clear browsing data* option.
5. Check the box for *cached images and files*.
6. Click *apply/save*. 

![Google Chrome Settings](image)
**Mozilla Firefox**

1. Click the button with three bars in the upper-right corner of the browser window.
2. Select *Options* from the resulting drop-down menu.
3. The *Privacy and Security* tab on the right side of the navigation bar and head to the *Cookies and Site Data* section underneath.
4. Click the button labeled *Clear Data*.
5. *Check* option for *Cached Web Content* and then press *Clear*. 
Internet Explorer

1. Click the gear-shaped Tools icon in the upper-right corner of the browser window.
2. Select Internet options from the resulting drop-down menu.
3. Click the gray Delete button within the browsing history section near the bottom of the pop-up window.
4. Then check the box labeled Temporary Internet files and website files — along with any other browser data you wish to clear — and click the gray Delete button in the bottom-right corner.
Safari

1. Click the *Develop* menu near the middle of the main Safari menu bar and select the *Empty Caches* option.
Opera

1. Click the *Menu* button in the upper-left corner of the browser window.

2. Select the *Settings* option from the drop-down menu.

3. Click *Advanced* in the bar to the left-hand side of the screen.

4. Click on the *Privacy & Security* panel located on the left side of the window.

5. Click the gray *Clear browsing data button* near the top of the *Privacy* section.

6. Check the box labeled *Cached images and files*.

7. Select the time frame you want to erase — to completely clear the cache, choose the beginning of time — from the drop-down menu.

8. Click the gray *Clear browsing data* button in the bottom-right corner.
Microsoft Edge

1. Click the option for *Privacy and Security*.
2. Next, choose the button labeled *Choose what to clear*.
3. Check the box labeled *Cached data and files* and click the *Clear* button.
**new Microsoft Edge**

1. Click the *menu* icon displaying three horizontal bars in the upper-right corner of the browser window.

2. Click *Settings* near the bottom of the drop-down menu.

3. Click *Privacy and Services* on the left-hand side of the screen.

4. Next, click *Clear browsing data*.

5. Click the blue *Choose what to clear* button.

6. Choose *All Time* from the Time Range and make sure Cached images and files is checked. And then click the blue *Clear now* button.
