

UNIFIED COMMUNICATIONS COMING SOON

ATTENTION BEAUMONT HOSPITAL, DEARBORN PHYSICIANS

OVERVIEW

Unified Communications provides clinicians with secure smartphones, and physicians with an app for their personal smartphones, to help improve care team communication and collaboration. The app gives caregivers the ability to send secured text messages, initiate phone calls, view a list of hospital and provider contacts and send broadcasts to the patient care team.

FEATURES

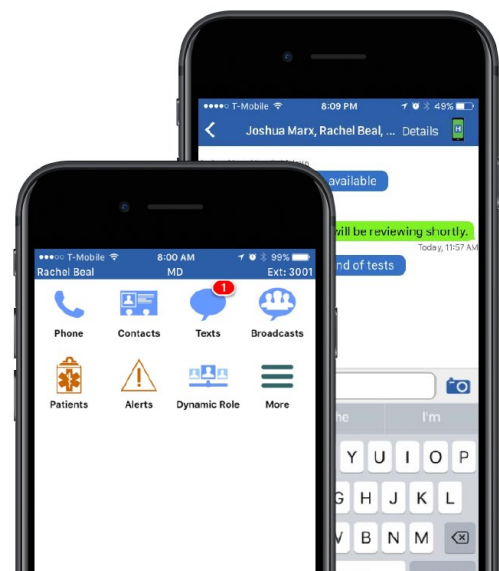

Features of Unified Communications:

- Patient and care team information from Epic *oneChart*
- Consolidated voice, data and secure texting

Note: You will need to include 10-digit dialing with Unified Communications.

BENEFITS TO YOU

- Immediate, secure communication between physicians, nurses and clinical departments
- Enables rapid, remote consultation or follow-up by physicians, no matter where they are
- Accelerates clinical response times to patient calls and care team requests

ENROLLMENT AND TRAINING DETAILS COMING SOON
