SPECIALTY SERVICES

Orthopedics – A comprehensive orthopedic center offering a full spectrum of diagnostic, non-operative and operative orthopedic care, including after-hours orthopedic care, pain management, inpatient and outpatient physical/occupational therapy, full spinal care, total/partial joint replacement, hand surgery and surgical options for sports injuries. Beaumont, Taylor is the largest MAKO Robotic Arm Assisted Robot for joint replacement surgery program in Michigan.

Rehabilitation Services – 58-bed, comprehensive inpatient rehabilitation facility offering care to address medical, physical, emotional and vocational challenges of people with brain injury, spinal cord injury, stroke, amputation, neurological disorders, orthopedic conditions and multiple trauma as well as outpatient rehabilitation therapy services in Taylor and Dearborn.

Sports Medicine – athletic training services for schools, athletes and active people for the care of injuries and conditions that can limit activity levels.

Imaging Services – offers advanced CT scans and MRI; ultrasound; a variety of diagnostic X-rays, nuclear medicine studies and interventional radiology.

Surgical Services – offers general and specialty procedures; minimally invasive treatments; advanced computer-integrated operating suites for robotic and laparoscopic procedures.

The Richard Kughn Medical Education Headquarters supports Beaumont Orthopedic Surgery and Physical Medicine and Rehabilitation residency training programs with an advanced medical library, video and web-linked classrooms, on-call rooms and faculty offices.

Neuroscience – offers treatment for neurological conditions of the brain and spine, including stroke, epilepsy, Parkinson's and Alzheimer's disease.

Wound Treatment Center – offers advanced wound care procedures and treatments, while providing hyperbaric oxygen to enhance the healing of chronic conditions and non-healing wounds.

Mental Health – a continuum of behavioral health services to meet the individual needs of adult patients and their families. Services include inpatient, outpatient and day treatment programs.

DISTINCTIONS (certifications, accreditations, etc.)

- Accredited with The Joint Commission Gold Seal of Approval for Total Joint Replacement.
- An "A" rating from Leapfrog Hospital Patient Safety (2017).

- Two Michigan Health & Hospital Association "Speak Up" awards for patient safety efforts.
- I CAL - Cardiology.
- ACR Accreditation for Imaging.

AWARDS AND RANKINGS

- VHA Central PEAK Award for Performance Excellence by the Centers for Medicare & Medicaid Services.
- 2018 Press Ganey National Guardians of Excellence award.

COMMUNITY INVOLVEMENT

Diabetes Prevention Program – a national program in partnership with the CDC, delivered by trained lifestyle coaches to support healthy lifestyle changes for adults with pre-diabetes or at risk for developing Type 2 diabetes.

Diabetes Personal Action Toward Health – a six-week program in partnership with the National Kidney Foundation of Michigan providing skills and tools to help participants manage Type 2 diabetes.

Healthy Communities – a multi-year initiative that integrates and coordinates primary care, public health and community interventions to improve population health and reduce health care costs.

Cooking Matters – a national program in partnership with Gleaners Community Food Bank of Southeastern Michigan teaching people how to shop for and prepare healthy, affordable meals.

Child and Adolescent Health Centers – providing expanded access to primary health care, mental health services and health education for children and teens in underserved communities.

Downriver YMCA Splash & Dash Youth Triathlon – Promotes health and fitness to kids in our community.

Beaumont Gets Walking – offers opportunities to improve health through walking, including toolkits to support self-directed walking groups.
