

Beaumont Hospital, Troy

Facts and figures

In response to the health care needs of a growing community, in 1977, Beaumont opened a new 200-bed hospital on rural farmland in Troy. Today, Beaumont, Troy has grown to 520 licensed beds and offers a comprehensive array of health care services, continuing to develop to meet the needs of the growing communities it serves.

Specialty Services

Oncology/End of Life Care – this inpatient unit with 44 private rooms is designed to meet the growing need for cancer care. The unit also provides end of life care, including pain and symptom control, for patients of community, state-licensed hospice programs.

Radiation Oncology – a leader in diagnosis and accelerated treatment of breast and prostate cancer, the outpatient radiation oncology department, located in Sterling Heights across from the Troy hospital, is equipped with advanced radiation therapy technology and offers the latest treatment options.

Inpatient Rehabilitation Unit – offers a complete range of rehabilitation services in a 20,000-square-foot, state-of-the-art setting. Conditions commonly treated include traumatic injuries, stroke, spinal disorders and brain disorders. The unit also provides therapies for patients recovering from surgery or cancer treatment.

Pediatric Services – from childhood emergencies to complex medical conditions, Beaumont, Troy offers advanced care for the ones who matter most. Pediatric emergency care features private rooms, special programs and equipment designed for family comfort and safety. For conditions that don't require a trip to the emergency room, the Pediatric After-Hours Clinic is open at night and on weekends, staffed with locally based, board-certified pediatricians. The on-site Pediatric Subspecialty Clinic offers a variety of pediatric specialty services including gastroenterology, cardiology, neurology, pulmonology (lung disease) and elective and emergency surgery.

Cardiac Progressive Care Center – designed to care for cardiac patients requiring heart rhythm monitoring and a higher level of nursing care. Patients undergoing percutaneous coronary interventions (angioplasty), heart rhythm studies, pacemaker or ICD implants and open-heart surgery patients are served on this unit.

Joint and Spine Surgery Unit – this inpatient unit with
