

Beaumont Hospital, Wayne

Facts and figures

Beaumont Hospital, Wayne (formerly Oakwood Annapolis Hospital) opened its doors to western Wayne communities in 1957. This 185-bed, full-service hospital is the only hospital in the Wayne, Westland, Garden City, Canton, Inkster and Romulus area verified by the American College of Surgeons as a Level III Trauma Center. The hospital has a longstanding partnership with Detroit Metropolitan Airport and the Centers for Disease Control and Prevention to handle a wide variety of health and communicable disease concerns including mass trauma and emergency patients.

Specialty Services

Emergency and Trauma Center – board-certified emergency medicine physicians; fast track service for rapid assessment and care for less urgent conditions; advanced life-saving procedures.

Surgical Services – a wide range of general and specialty procedures; minimally invasive treatments; advanced computer-integrated operating suites for robotic and laparoscopic procedures.

Cancer Infusion Center – medical oncology services including inpatient and outpatient infusion therapy, chemotherapy and other cancer therapies.

Imaging Services – technologically advanced MRI, including the only open MRI in the area, which is a comfortable and less stressful option for bariatric or claustrophobic patients; diagnostic X-ray services, 64-slice CT scanning and cardiac CT angiography.

Women's Health Services – The Beaumont Breast Care Center, Wayne maintains a top ranking in patient satisfaction scores and features digital mammography, tomosynthesis, 3-D imaging, stereotactic and ultrasound-guided breast biopsies, breast ultrasound, bone density testing and a breast care nurse navigator to help patients feel at ease in a home-like setting. Staff also work with a fellowship trained breast surgeon.

Family-Focused Birthing Center – private birthing suites for labor, delivery, recovery and postpartum; unique amenities to enhance the entire stay, including comfortable furniture for families who want to spend

the night; flat screen TVs; and dietary services similar to hotel room service.

Rehabilitation Services – routine and emergent care for both inpatient and outpatient rehabilitation therapy. Conditions commonly treated include traumatic injuries, stroke, spinal disorders and brain disorders. The unit also provides therapies for patients recovering from other treatments and includes home oxygen and pulmonary function testing.

Heart and Vascular Services – emergency and elective cardiac interventions including angioplasty; a cardiac catheterization lab; and noninvasive and cardiac rehabilitation services. Diagnostic and interventional vascular procedures are also available.

Bariatric Services – offering dedicated, private post-surgical suites for recovery in a hotel-like environment. Board-certified surgeons specializing in the latest minimally invasive approaches to modify the gastrointestinal tract to help patients with long-term weight loss and better quality of life. Services are coordinated with the Canton Weight Control Center, which features a team of multidisciplinary experts, including dietitians, exercise physiologists, psychologists and physicians, to provide patients with personalized weight loss solutions, helping them feel better and gain positive attitudes about eating and exercise.

Community Health Needs programs and services

Heart Health and Diabetes Screening – consists of blood pressure, cholesterol, glucose screening and risk factor counseling.

Diabetes Prevention Program – a national program in partnership with the Centers for Disease Control supporting healthy lifestyle changes for adults with pre-diabetes and those at risk for developing type 2 diabetes. Delivered by trained lifestyle coaches over the course of a year, participants work together to lose body weight and increase their physical activity to reduce their risk for developing type 2 diabetes.

Diabetes Personal Action Toward Health (PATH) – a national six-week program in partnership with the National Kidney Foundation of Michigan providing skills and tools to enhance a participant's ability to manage type 2 diabetes and work more effectively with health care providers, reducing symptoms and doctor visits.

Healthy Communities – a multi-year initiative that integrates and coordinates primary care, public health and community interventions to improve population health and reduce health care costs.

Cooking Matters – a national program in partnership with Gleaners Community Food Bank of Southeastern Michigan. The six-week program teaches adults and teens how to shop for and prepare healthy, affordable meals. A special version of the program is available for those with diabetes or pre-diabetes.

Prescription for Health – a program in partnership with Meijer to provide fresh fruits and vegetables and health coaching to patients with chronic disease.

CATCH Kids Club

– CATCH is a national after-school program providing a learning and social environment to support physical activity and healthy eating as lifelong habits to maintain a healthy weight.

Child and Adolescent Health Centers in Romulus and Wayne/Westland – provide expanded access to primary health care, mental health services and health education for children and teens in underserved communities.

About Beaumont Health

Beaumont Health is Michigan's largest health care system, based on inpatient admissions and net patient revenue. A not-for-profit organization, it was formed in 2014 by Beaumont Health System, Botsford Health Care and Oakwood Healthcare to provide patients with the benefit of greater access to extraordinary, compassionate care, no matter where they live in Southeast Michigan. Beaumont Health has total net revenue of \$4.4 billion and consists of eight hospitals with 3,429 beds, 187 outpatient sites, nearly 5,000 physicians, 38,000 employees and 3,500 volunteers. In 2017, Beaumont Health had 175,688 inpatient discharges, 17,789 births and 574,591 emergency visits. For more information, visit beaumont.org.
