

About Corewell Health Trenton Hospital

Corewell Health Trenton Hospital is a 193-bed acute care teaching hospital that sponsors nine university-affiliated residency programs. The hospital opened its doors to Trenton and its surrounding communities in 1961. It became part of Beaumont Health in September 2014. In addition to providing comprehensive medical and surgical care for its patients, the hospital offers all private beds, a medical and surgical intensive care unit and obstetrical care.

Specialty services

Bariatric services – board-certified surgeons specialize in the latest minimally invasive approaches to modify the gastrointestinal tract to help patients with long-term weight loss and better quality of life.

Emergency and trauma services – the only verified Level II Trauma Center serving the downriver community. Advanced life-saving procedures are readily available 24/7 for patients with traumatic injuries.

Heart and vascular services – emergent and elective angioplasty, stress testing, EKG, echocardiography event recorders, tilt table testing and EEG studies. Cardiac rehabilitation services are offered for those with heart conditions or who have experienced a cardiac event or procedure.

Lung nodule clinic – provides early diagnosis and expedited care for pulmonary nodules after physician review. Care plans are developed using a multidisciplinary approach, and a nurse navigator is available to facilitate care.

Surgical services – offering 12 operating rooms, three endoscopy suites and one cystoscopy suite. Provides a wide range of general and specialty surgical services, including minimally invasive surgery, robotic surgery using two da Vinci Xi robots and an outpatient surgery center.

Surgical services subspecialties – neurosurgery; including spine, orthopedics, vascular surgery, thoracic surgery, plastic surgery, urology, breast surgery, gyn surgery, general surgery and bariatrics.

Imaging services – advanced 1.5T and 3T MRI, offering MRIs under anesthesia and for patients with pacemakers, diagnostic X-ray services, 128-slice CT scanning and cardiac CT angiography, PET/CT, and vascular and MSK ultrasound.

Women's health services – The Karen Colina Wilson Smithbauer Breast Care Center provides screening and diagnostic digital mammography (3D breast tomosynthesis), breast ultrasound, automated whole breast ultrasound for dense breast tissue, bone mineral density testing and stereotactic breast biopsy with a dedicated breast surgeon. Other women's services include obstetrics and gynecological surgery.

Distinctions (certifications, accreditations)

- Accredited by The Joint Commission with a Gold Seal of Approval for Total Joint Replacement.
- ANCC Magnet designation for nursing excellence.
- Blue Distinction Center for Hip and Knee Replacement.
- Radiology is accredited through the American College of Radiology in multiple modalities.
- The Karen Colina Wilson Smithbauer Breast Care Center is designated as a Center of Excellence by the American College of Radiology.
- The cardiac cath lab received Elective Percutaneous intervention CON approval through Corazon Accreditation.
- Cardiac rehabilitation received certification through the American Association of Cardiovascular and Pulmonary Rehabilitation.

Community involvement

Healthy communities – a multi-year initiative that integrates and coordinates primary care, public health and community interventions to improve population health and reduce health care costs.

Diabetes Personal Action Toward Health (PATH) – a national, six-week program in partnership with the National Kidney Foundation of Michigan providing skills and tools to enhance a participant's ability to manage Type 2 diabetes and work more effectively with health care providers.

Diabetes Prevention Program – a national program in partnership with the Centers for Disease Control supporting healthy lifestyle changes for adults with prediabetes and those at risk for developing Type 2 diabetes.

Child and adolescent health centers – provide expanded access to primary health care, mental health services and health education for children and teens in underserved communities.

Hypertension Self-Management – the eight-week course helps manage hypertension by focusing on nutrition, physical activity, stress management and more.

Walk With Ease – the six-week program can help teach how to safely make physical activity part of your everyday life. Materials include a guidebook and a walking schedule to get you safely moving towards better health.
