## Beaumont Hospitals' Method for Calculating Amounts Generally Billed to Patients

Each of the Beaumont Hospitals uses the look-back method in accordance with Treas. Reg. § 1.501(r)-5(b)(3) to determine its amounts generally billed (“AGB”) percentage. Each hospital facility’s AGB percentage was calculated by dividing the sum of the amounts of all of the hospital facility’s claims for emergency and other medically necessary care that were allowed by Medicare fee-for-service and all private health insurers (including plans administered by private health insurers under Medicare Advantage) during the period January 1, 2021 through December 31, 2021, by the sum of the associated gross charges for those claims.

As of January 1, 2022, the AGB percentage for each of the Beaumont Hospitals is as follows:

- Beaumont Hospital – Dearborn: 24.2%
- Beaumont Hospital – Farmington Hills: 25.6%
- Beaumont Hospital – Grosse Pointe: 25%
- Beaumont Hospital – Royal Oak: 26.9%
- Beaumont Hospital – Taylor: 25.4%
- Beaumont Hospital – Trenton: 24.1%
- Beaumont Hospital – Troy: 25.5%
- Beaumont Hospital – Wayne: 23.8%
- 

The AGB percentages will be updated at least annually.
