

Most services provided by physicians at Beaumont Health facilities are covered by the [Beaumont Health Financial Assistance Policy](#) (FAP).

Physicians working at each facility who are not covered under the FAP are identified in the attached provider list, by name and the hospital facility where they practice.

The list of physicians who do and do not accept Beaumont Health’s financial assistance policy is available online at beaumont.org/financial-assistance. Paper copies can be obtained upon request by calling our customer service center or by asking a Beaumont financial counselor.

This listing is effective as of October 2017 and updated quarterly. If you do not see a physician listed here and want to verify whether that person is currently covered under the Beaumont FAP, please call our customer service center at 248-577-9205.
