

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
		Last Periodic Review Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Functional Area: Administration, Revenue Cycle

***For This Document, Beaumont Health Includes:**

Beaumont Hospital, Dearborn
 Beaumont Hospital, Farmington Hills
 Beaumont Hospital, Grosse Pointe
 Beaumont Hospital, Royal Oak
 Beaumont Hospital, Taylor
 Beaumont Hospital, Trenton
 Beaumont Hospital, Troy
 Beaumont Hospital, Wayne
 Beaumont Medical Group

I. PURPOSE AND OBJECTIVE:

The purpose of this Policy is to describe the manner in which Beaumont Health Hospitals and Beaumont Medical Group identify and provide financial assistance to patients who need help paying their hospital bills.

This Policy refers to these hospitals collectively as the “Beaumont Hospitals” or the “Hospitals,” and individually as a “Beaumont Hospital” or the “Hospital.”

This Policy is intended to satisfy the requirements in Section 501(r) of the Internal Revenue Code of 1986, as amended, which imposes certain requirements on the Hospitals regarding financial assistance, charge limitations, and billing and collection activities. Patients who do not have the means to pay for services provided at the Hospitals may request financial assistance, and may be awarded financial assistance, in accordance with the terms and conditions of this Policy.

Capitalized words used in this Policy and not otherwise defined have the meanings set forth in Section III, below.

II. POLICY STATEMENT:

A. It is the policy of the Beaumont Health to:

1. Provide Emergency Care and other Medically Necessary Care, without discrimination, to all patients regardless of ability to pay;
2. Provide financial assistance for Emergency Care and other Medically Necessary Care to individuals who qualify for such assistance under this Policy;

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

3. Not charge patients eligible for financial assistance under this Policy for Emergency Care or other Medically Necessary Care more than the Amounts Generally Billed (*i.e.*, a Beaumont Health will not charge a patient who is eligible for financial assistance under this Policy for Emergency Care or other Medically Necessary Care more than the Gross Charges for such care multiplied by the amounts generally billed (AGB) Percentage); and
 4. Charge patients eligible for financial assistance under this Policy less than Gross Charges for services other than Emergency Care or other Medically Necessary Care.
- B. Eligibility for financial assistance is determined based on the patient’s demonstrated inability to pay for services or items due to inadequate financial resources. As specified in this Policy, in evaluating a patient’s eligibility for financial assistance, a Beaumont Health considers the patient’s Family Assets, as well as the patient’s Family Income as compared to the Federal Poverty Guidelines (which are updated annually). In addition, to qualify for financial assistance, a patient must cooperate in providing information requested by the Beaumont Health in accordance with this Policy and in applying for Medicaid or third-party payment programs.

As described below, this Policy:

1. Includes the eligibility criteria for financial assistance and sets forth the circumstances in which a patient will qualify for free or discounted care.
2. Describes the method for applying for financial assistance.
3. Describes the method by which patients may be presumptively determined to qualify for financial assistance and the method by which patients who are presumptively determined to qualify for less than 100% financial assistance may apply for more financial assistance.
4. Describes the basis for calculating amounts charged to patients eligible for financial assistance under this Policy, as well as the amounts to which charity care adjustments will be applied.
5. Limits the amounts that a Beaumont Health will charge for Emergency Care or other Medically Necessary Care provided to patients eligible for financial assistance to no more than the Amounts Generally Billed to individuals who have insurance covering such care.

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

6. Describes the method by which a Beaumont Health determines the Amounts Generally Billed.
 7. States that Beaumont Health maintains a separate document a list specifying which providers (other than the Beaumont Hospitals) delivering Emergency Care or other Medically Necessary Care in the Hospitals are covered by this Policy and which are not, and explains how an individual may readily obtain a free copy of the list.
 8. States that Beaumont Health maintains a separate Billing and Collections Policy that sets forth actions that may be taken in the event of non-payment and provides instructions for how members of the public readily may obtain a copy of the [Billing and Collection Policy](#).
- C. Beaumont Health provides Emergency Care to all patients, regardless of ability to pay, in accordance with the Emergency Medical Treatment and Active Labor Act (EMTALA).

III. DEFINITIONS

The following definitions apply for purposes of this Policy:

- A. **Amounts Generally Billed or AGB:** Each Beaumont Hospital will apply the “look-back method” for determining AGB. In particular, each Hospital will determine the Amounts Generally Billed for all medical care by multiplying the Gross Charges for that care by the AGB Percentage.
- B. **AGB Percentage:** Each Beaumont Hospital will calculate its own AGB Percentage by dividing the sum of all claims that have been allowed for all medical care by Medicare fee-for-service and all private health insurers together during a prior twelve (12)-month period by the sum of the associated Gross Charges for those claims. For these purposes, included in the amount “allowed” is both the amount to be reimbursed by Medicare or the private insurer and the amount (if any) the Medicare beneficiary or insured individual is personally responsible for paying (in the form of co-insurance, copayments or deductibles), regardless of whether and when the individual actually pays all or any of his or her portion, and disregarding any charity care adjustments or discounts applied to the individual’s portion (under this Policy or otherwise). Each Beaumont Hospital will calculate a revised AGB Percentage annually and will apply the revised AGB Percentage by the 120th day after the end of the 12 month-period used to determine the AGB Percentage.

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

Each Beaumont Hospital's AGB Percentage will be posted on Beaumont Health's website. In addition, members of the public may obtain any Beaumont Hospital's AGB Percentage in writing and free of charge by calling (248) 577-9205 or submitting a written request to the following address:

Customer Service Department
 Beaumont Health System
 26935 Northwestern Hwy.
 Southfield, MI 48033

- C. **Emergency Care:** The care or treatment for an Emergency Medical Condition as defined by the Emergency Medical Treatment and Active Labor Act (EMTALA).
- D. **EMTALA:** The Emergency Medical Treatment and Active Labor Act (42 U.S.C. § 1395dd) and the regulations under Subchapter G of Chapter IV of Title 42 of the Code of Federal Regulations.
- E. **Family:** Using the U.S. Census Bureau definition, a group of two or more people who reside together and who are related by birth, marriage or adoption. In addition, if the patient is claimed as a dependent on a parent's or adult child's tax return, the party claiming the patient as a dependent will be considered a member of the patient's Family.
- F. **Family Assets:** The combined assets (other than Family Income) of the patient, members of the patient's Family and all Guarantors, as adjusted in accordance with this Policy. Family Assets include, without limitation, monies held in bank accounts and investment accounts, bonds, certificates of deposit, and trust assets. Excluded from Family Assets are: real property; vehicles; and assets jointly owned by the patient and an individual who is not a member of the Family, but only if the patient's access to the asset is solely for the benefit of the non-Family member. Applicants for financial assistance may be required to provide documentation regarding the value of Family Assets.
- G. **Family Income:** Total income received by the patient, the patient's Family members who are older than 15 years of age, and all Guarantors from all sources, including, for example, earnings, unemployment compensation, workers' compensation, Social Security, Supplemental Security Income, public assistance, veterans' payments, survivor benefits, pension or retirement income, interest, dividends, rents, royalties,

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

income from trusts, educational assistance, alimony, child support, and other assistance. For this purpose, retirement accounts will be valued based on their annuity value, with the annual equivalent value treated as Family Income; twenty-five years will be used as the duration of the annuity, and 3.5% will be used as the annual growth rate. During the presumptive eligibility screening process, Beaumont Health may estimate a patient's Family Income by using a third-party-developed calculation model, which utilizes credit report information, self-reported data, marketing data sources and average incomes for others near the patient's reported address.

- H. **Federal Poverty Guidelines**: The Federal Poverty Income Guidelines as published in the *Federal Register* from time to time by the U.S. Department of Health and Human Services and in effect on the date of service. The current Federal Poverty Guidelines applicable to this Policy, as updated from time-to-time, are attached as Appendix A (see attachment tab upper right corner).
- I. **Gross Charges**: The Hospital's full established rates for the provision of healthcare items and services.
- J. **Guarantor**: A person other than the patient who is responsible for payment of the patient's medical bills.
- K. **Medically Necessary Care**: Those services reasonable and necessary to diagnose and provide preventive, palliative, curative or restorative treatment for physical or mental conditions in accordance with professionally recognized standards of healthcare generally accepted at the time services are provided. Medically Necessary Care does not include cosmetic services, cosmetic surgery, other elective services, discounted items and services provided via package price arrangements, personal services (e.g., room charges) or patient convenience items.
- L. **Uninsured Patient**: An individual having no third-party coverage by a commercial insurer, ERISA plan, a federal healthcare program (including, without limitation, Medicare, Medicaid, SCHIP and CHAMPUS), worker's compensation, or other third-party assistance to assist with meeting his or her financial obligations for medical care.

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

IV. PROCEDURE:

A. Patient Referral

Hospital staff responsible for scheduling appointments or registration should refer all patients without insurance and unable to pay for care to a Benefit Advisor to determine eligibility for financial assistance. Patients with insurance who cannot afford to pay their share of the total amount due should also be referred to a Benefit Advisor.

B. Eligibility

1. Eligibility Criteria

- a. Eligibility for financial assistance is based on the patient's demonstrated inability to pay for services or items due to inadequate financial resources. A patient is not eligible for financial assistance under this Policy if the patient's Family Assets are valued at \$50,000 or more, regardless of the patient's Family Income.
- b. A patient with Family Assets valued at less than \$50,000 who satisfies the following criteria will qualify for a financial assistance adjustment of amounts owed for Emergency Care or other Medically Necessary Care by the patient (but not on amounts owed by a third-party payor), based on a sliding scale, in the amount indicated:
 - If a patient's Family Income is less than or equal to 200% of the Federal Poverty Guidelines, the patient will receive a 100% charity care adjustment with respect to amounts owed by the patient.
 - If a patient's Family Income is at least 201% but less than or equal to 300% of the Federal Poverty Guidelines, the patient will receive a 75% charity care adjustment with respect to amounts owed by the patient.
- c. The current Federal Poverty Guidelines are attached as Appendix A.
- d. If the patient is claimed as a dependent on a parent's or adult child's tax return, the income of the party claiming the patient as a dependent, along with any other Family Income, will be considered as the basis for determining eligibility.

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

- e. If current Family Income has significantly increased over the past year, Beaumont Health may suspend a decision regarding financial assistance if there is a reasonable basis to believe that Family Income will revert back to previous levels. Notwithstanding any provision of this Policy to the contrary, if Family Income has significantly decreased over the past year, Beaumont Health may deny financial assistance if there is a reasonable basis to believe that Family Income will revert back to previous levels within the next year.
- f. Financial assistance is not applicable to an insurance company's or benefit plan's payment responsibility under a health benefits plan, regardless of whether the insurance company or health plan has made payment to the patient or to a Beaumont Health.
- g. If the patient receives a financial settlement or judgment from a third-party tortfeasor that caused the patient's injury that led to the medical services and items provided by Beaumont Health, the patient must use the settlement or judgment amount to satisfy any patient account balances and will not be eligible for financial assistance.
- h. Financial assistance is available under this Policy only to residents of the United States unless a specific exception is granted in advance of services being rendered.
- i. In addition to meeting the Family Income and Family Assets criteria set forth above, to be eligible for financial assistance under this Policy, a patient also must:
 - Complete the Financial Assistance Application provided by Beaumont Health;
 - Supply all documentation requested by Beaumont Health in accordance with this Policy and the Financial Assistance Application form;
 - Apply for all public assistance programs requested by the Beaumont Health, including, for example, Medicaid, Social Security, disability, etc.; and
 - Cooperate with Beaumont Health in determining whether or not the patient is eligible for financial assistance under this Policy.
- j. Beaumont Health will provide reasonable assistance to patients in pursuit of public benefits for which they may qualify (such as, for example, Michigan

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

Medicaid, Social Security, etc.). Beaumont Health may use the services of outside vendors to assist patients in seeking these benefits.

- k. A determination that a patient is eligible for financial assistance is subject to change if it is discovered that information provided during the application process or otherwise was inaccurate or incomplete. In such circumstances, the patient will be notified and will be responsible for payment.

2. Presumptive Eligibility for Financial Assistance

- a. Beaumont Health may use a third party to conduct an electronic review of public record databases to estimate a patient’s Family Income and otherwise to assess financial need. This predictive model incorporates public record data to calculate a socio-economic and financial capacity score that includes estimates for income, assets and liquidity. The electronic technology is designed to assess each patient to the same standards and is calibrated against historical for financial assistance under the traditional application process. The family income and size information obtained from the third party will be used in conjunction with the Financial Assistance Policy sliding scale to determine the amount of financial assistance for which the patient presumptively is eligible.
- b. A patient who is a Medicaid beneficiary will be deemed presumptively to qualify for 100% financial assistance.
- c. If a patient is presumptively determined to be eligible for 100% financial assistance, the Business Office will notify the patient of the determination in writing, and the patient will not be required to complete a Financial Assistance Application. If a patient is presumptively determined to be eligible for less than 100% financial assistance, we will notify the patient regarding the basis for the presumptive eligibility determination and the manner in which the patient may apply for more financial assistance under this Policy, and it will give the patient a reasonable period of time to apply for more generous assistance before initiating extraordinary collection actions to obtain the discounted amount owed for the care.

3. Period to Which a Determination of Eligibility Applies

A determination of eligibility for financial assistance shall apply only to a particular episode of care. Qualification for financial assistance with respect to a

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

particular episode of care does not automatically qualify a patient for similar assistance with respect to services or items provided in the future.

C. How to Apply for Financial Assistance

1. Application Process and Deadline

Unless presumptively determined to be eligible for a 100% charity care adjustment, to apply for Financial Assistance (or for more generous financial assistance, in the case of an individual who is presumptively determined to qualify for less than 100% financial assistance), a patient or the patient's Guarantor must complete the Financial Assistance Application provided by a Beaumont Health and provide all documentation requested by the Hospital in accordance with this Policy and the Financial Assistance Application.

Patients should complete the Financial Assistance Application as soon as possible after receiving services or items from a Beaumont Health. Patients will be allowed to apply for financial assistance for up to 240 days after the date of the first post-discharge billing statement for the episode of care at issue. Failure to complete and return the application within that 240-day period may result in the denial of financial assistance.

2. Proof of Family Income and Family Assets

- a. All applicants for financial assistance should provide proof of Family Income and Family Assets. Upon request of Beaumont Health, an applicant may be required to provide copies of the following that are applicable:
 - Paycheck stubs for at least the last four weeks or a statement from the employer verifying gross wages
 - IRS Forms W-2 issued during the past year
 - Most recent IRS Form 1040
 - Most recent two months of bank statements for each checking, savings, money market or other bank or investment account
 - Written statements for the most recent two months for all other income (e.g., unemployment compensation, disability, retirement, etc.)

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

- Unemployment compensation denial letter
 - Documentation of Family Assets values
- b. Failure to provide any of these documents may result in a denial of financial assistance, although an applicant will not be denied financial assistance based on failure to provide information or documentation that this Policy or the Financial Assistance Application does not explicitly require. If an applicant does not have any of the listed documents to demonstrate Family Income or Family Assets, the applicant may contact the Hospital’s financial counseling office at the locations and phone numbers listed in Appendix B (see attachment tab upper right corner) to discuss other evidence that may be provided to demonstrate eligibility.
- c. Beaumont Health may share patient financial assistance information across Beaumont Health affiliated sites for the benefit and ease of administering financial assistance to patients seen at multiple locations. No information will be shared outside of Beaumont Health unless authorized or required by law.

3. Where to Obtain a Financial Assistance Application and Other Financial Assistance Information

Each Beaumont Health makes this Financial Assistance Policy, the Financial Assistance Policy Application, and a plain language summary of this Financial Assistance Policy, and the Billing and Collection Policy available on the Beaumont Health website at <https://www.beaumont.org/patients-families/billing/financial-assistance>, in the following languages:

- English
- Albanian
- Arabic
- Chinese
- German
- Italian
- Japanese
- Korean
- Polish
- Russian
- Spanish
- Vietnamese

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

In addition, paper copies of this Financial Assistance Policy, the Financial Assistance Application, the list of covered and non-covered providers, a plain language summary of this Financial Assistance Policy and the Billing and Collection Policy are available, upon request and without charge, in the Hospital’s admissions areas and Emergency Center and, during normal business hours, at the applicable Hospital financial counseling office listed in Appendix B.

Beaumont Health’s Benefit Advisors are available to answer questions about financial assistance and to help patients with completion of the Financial Assistance Application. The location and phone number applicable to each Hospital’s Benefit Advisor office is set forth in Appendix B.

4. Where to Submit the Financial Assistance Application

The completed Financial Assistance Application should be submitted, along with the required supporting documentation, to the following Beaumont Health Patient Financial Services location:

Beaumont Health
 Attn: Customer Service
 26935 Northwestern Hwy.
 Southfield, MI 48033
 Telephone: (248) 577-9205

5. Time for Processing a Financial Assistance Application

Beaumont Health staff will review the Financial Assistance Application and will determine the patient’s eligibility for financial assistance. The application review process generally is completed within 30 days. Once a decision has been made regarding financial assistance eligibility, the Business Office will send a letter advising the applicant of the decision. An incomplete Financial Assistance Application will be returned to the applicant along with a written description of the additional information and documentation required in order for the individual to complete the Application.

6. Disputes

A patient may seek review of any decision by Beaumont Health to deny financial assistance, or to provide a charity care adjustment of less than 100%, by notifying the individual indicated for the facility at the office listed in Appendix C (see attachment tab upper right corner) of the basis of the dispute and the desired relief

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

within 30 days after the patient’s receipt of notice of the circumstances giving rise to the dispute. Patients may submit the dispute orally or in writing. The individual indicated for the Hospital on Appendix C, or his or her designee, will review the patient’s dispute and inform the patient of any decision in writing.

7. Uninsured Patient Discount Policy

A patient who chooses not to participate or who is denied Financial Assistance under the means-tested or presumptive eligibility components of this Policy may still qualify for an uninsured self-pay discount pursuant to the Uninsured Discount Policy. A copy of the Uninsured Patient Discount Policy may be obtained from any of the Benefit Advisor offices listed in Appendix B.

D. Basis for Calculating Amounts Charged to Patients Eligible for Financial Assistance

Beaumont Health will not charge patients eligible for financial assistance under this Policy for Emergency Care or other Medically Necessary Care more than the Amounts Generally Billed to individuals who have insurance covering such care (*i.e.*, more than the Gross Charges for such care multiplied by the AGB Percentage). Members of the public may readily obtain the AGB Percentage in effect at any particular time and an accompanying description of the calculation in writing and free of charge as follows:

- At the following website: <https://www.beaumont.org/patients-families/billing/financial-assistance>.
- By request to the applicable financial counseling office listed in Appendix B.

To determine the amount owed for Emergency Care or other Medically Necessary Care by a patient eligible for financial assistance under this Policy, the applicable charity care adjustment percentage as determined under Section I.B.1 of this Policy shall be applied to the Gross Charges for such care multiplied by the AGB Percentage. For insured patients, the adjusted Gross Charges will be used to calculate only the patient’s out-of-pocket financial responsibility under the applicable health benefits plan; the health plan’s financial responsibility will be based on the plan’s terms and the Beaumont Hospital’s agreed rates without further adjustment, regardless of whether the health plan has made payment to the patient or to the Beaumont Health. The combination of insurance payments and patient payments may exceed the AGB.

Title: Financial Assistance	*Applicable to: Beaumont Health	Effective Date: 09/07/2018
Policy Owner: VP Revenue Cycle	Document Type: Policy	Last Periodic Review Date: 09/07/2018 Functional Area: Administration, Revenue Cycle

In accordance with Michigan law, Beaumont Health will not charge an uninsured patient with Family Income at or below 250% of the Federal Poverty Guidelines more than 115% of the Medicare reimbursement rate.

Beaumont Health will charge a patient eligible for financial assistance under this Policy less than Gross Charges for services other than Emergency Care or Medically Necessary Care.

E. BILLING AND COLLECTIONS

Each Beaumont Health has developed policies and procedures for internal and external collection practices that take into account the extent to which a patient qualifies for financial assistance, a patient’s good faith effort to apply for a governmental program, and a patient’s good faith effort to comply with any payment agreements with Beaumont Health. For patients who qualify for financial assistance and who are cooperating in good faith to resolve their outstanding bills, Beaumont Health may offer extended payment plans, will not impose Extraordinary Collection Actions (as defined in Section 501(r) of the Internal Revenue Code of 1986, as amended), and will not refer unpaid bills to outside collection agencies.

All billing statements sent to patients include a conspicuous written notice that informs recipients about the availability of financial assistance under this Policy and includes the telephone number of the Hospital office that can provide information about this Policy and Financial Assistance Application process, as well as the direct website address where copies of this Policy, the Financial Assistance Application form, and a plain language summary of this Policy may be obtained.

The actions that Beaumont Health may take in the event of non-payment are described in a separate Billing and Collections Policy. A copy of the Billing and Collections Policy is available on Beaumont Health’s website at <https://www.beaumont.org/patients-families/billing/financial-assistance> or by contacting the applicable Hospital Benefit Advisor office listed in Appendix B.

F. Providers Covered Under This Policy

A list of providers (the “Provider List”) contracted or otherwise authorized to render care to patients in Beaumont Health and specifying which providers are covered by this Policy, is maintained separately from this Policy. The Provider List applies only as of the date on which it was created or last updated, as specified on the Provider List. The Provider List may be obtained, free of charge, online at

<https://www.beaumont.org/patients-families/billing/financial-assistance>, or by contacting any of the Benefit Advisor offices listed in Appendix B.

G. Emergency Medical Care Policy

Beaumont Health provides to individuals, without discrimination, care for emergency medical conditions within the meaning of EMTALA, regardless of whether they are eligible for financial assistance under the Policy. Beaumont Health prohibits any action that would discourage individuals from seeking emergency medical care, including requiring prepayment of fees or conducting debt collection activities in the Emergency Center or in other Hospital venues where such activities could interfere with the provision, without discrimination, of emergency medical care.
