Having trouble locating a document in the BH policy system?

Try expanding the search field. Log into the BH policy system (green link), click the "Change Location" dropdown, edit by selecting the desired 'location' or choose "Whole Index of All Policies," rerun your search. If still unsuccessful, the policy likely has not transitioned to the BH policy system. Access the applicable legacy policy system and scroll the lists for your policy.

Beaumont Health policies and procedures will be published as they are developed. Until then, please visit your founding organization's intranet site for current documents:
