

OBSTETRICS AND GYNECOLOGY RESIDENCY CURRICULUM

First Postgraduate Year (PGY-1)

Obstetrics	2.5 months	labor and delivery and general inpatient obstetrics and postpartum care
Gynecology	2.5 months	general gynecologic surgery and inpatient pre- and postoperative care
Fetal Imaging	0.5 months	introductory OB ultrasonography
Newborn Medicine	0.5 months	neonatal resuscitation and overview of normal newborn and neonatal intensive care
Ambulatory Medicine	2 months	general internal medicine outpatient primary and preventive care
Inpatient Medicine	1 month	general medical care on inpatient internal medicine services
Emergency Medicine	1 month	general adult (non-OB/GYN) emergency medical care
Geriatric Medicine	1 month	introductory geriatric care within Division of Geriatrics of Internal Medicine department
Surgical Intensive Care	1 month	post-surgical critical care management in SICU with intensivist faculty

Second Postgraduate Year (PGY-2)

Maternal-Fetal Medicine	2 months	complicated and high-risk obstetric care, both Inpatient and office-based
Reproductive Endocrinology/ Infertility	2 months	gynecologic endocrinology and infertility, both Office-based and operative
Gynecologic Oncology	2 months	gynecologic cancer care, both operative and inpatient
Obstetrics	4 months	labor and delivery and general inpatient obstetric care
Gynecology	2 months	after-hours general obstetric, labor and delivery, inpatient care and gynecologic emergency care

Third Postgraduate Year (PGY-3)

Gynecology	6 months	general inpatient gynecologic care with significantly increased exposure and responsibility for major surgery
Obstetrics	4 months	general obstetric and labor and delivery inpatient care; responsible for "running the OB board"
OB Night Float	2 months	after-hours general obstetric and labor and delivery inpatient care

Fourth Postgraduate Year (PGY-4) - "Chief Year"

Obstetrics	2 months	
Gynecology	2 months	in all areas, advanced inpatient and outpatient
Maternal-Fetal Medicine	2 months	care with chief-of-service educational and administrative responsibilities
Reproductive Endocrinology/ Infertility	2 months	
Gynecologic Oncology	2 months	
Ambulatory OB/GYN Chiefship	2 months	includes female incontinence and urodynamic testing clinic, additional ambulatory general medicine experience, OB and GYN Quality Assessment Committee participation, and Legal Affairs rotation

Other educational features contained within the above-described rotations include:

Reproductive Genetics:	one-half day per week while on PGY-1 ambulatory medicine rotation
Breast Disease	one week in Breast Care Center while on PGY-3 gynecology rotation
Advanced OB Ultrasonography:	one week in Fetal Imaging unit while on PGY-4 obstetric rotation
OB/GYN Call	in addition to home service rotations, residents also take OB/GYN call while assigned to Fetal Imaging, Newborn Medicine, Ambulatory Medicine and Genetics as PGY-1
OB/GYN Continuity Care Clinics	importantly, all PGY-2,3,4 residents devote a half-day per week protected time in the OB/GYN outpatient clinics; each resident has a patient panel inclusive of obstetric, gynecologic, primary and preventive care, and annual health maintenance patient care under direct faculty supervision
