

## DIVERSITY COUNCIL

---

### **Our Mission**

*To advance an environment of care which welcomes diversity, respects and values all persons.*

Our environment is enhanced by our ability to respond respectfully and effectively to people of all cultures in a manner that recognizes, affirms and values individual differences and similarities while preserving the dignity of every person.

We serve growing multi-cultural and diverse communities with growing populations of the elderly, racial and ethnic minorities. Culturally competent healthcare systems that provide culturally sensitive and language appropriate services have the potential to reduce disparities in health care, improve health outcomes and increase consumer satisfaction.

## CLINICAL LANGUAGE SERVICES

---

We are committed to providing healthcare services to patients and families whose primary language is not English and for those with limited English proficiency. In addition, we recognize the unique needs of patients who are deaf or hard of hearing.

Clinical Language Services provides various translated patient care documents as well as interpreters for our patients and families who need them. This website also includes a list of other helpful resources
